

## 60" STAINLESS STEEL ROLLING WORKBENCH

CT1973

### INSTRUCTION BOOKLET

#### CAUTION

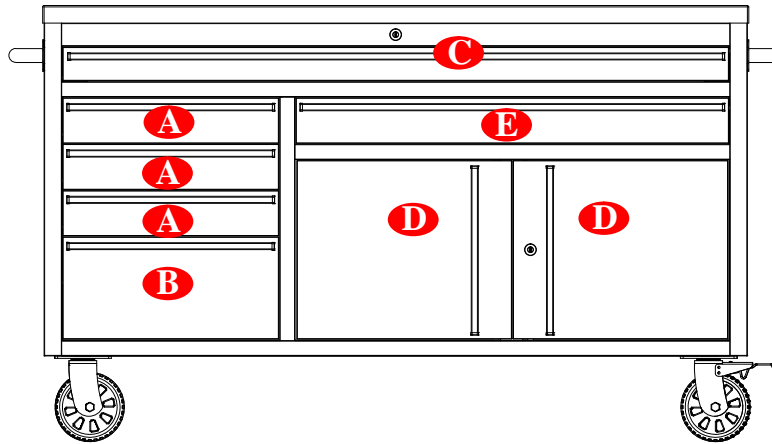

Please take safety precautions when using the tool chest.

- New drawer glides may be stiff and difficult to open when first expanding the glide. A gentle outward pull should release the safety catch that is built into the glide to prevent drawer opening while moving the tool chest.
- **Gently set parts on a flat, protective surface.**
- Do not open more than one drawer at a time.
- Do not step or climb on drawers.
- Do not let children near the tool chest.
- Fill the bottom drawer first. If the tool chest is filled from the top drawer down, then the tool chest will be top-heavy and might fall over.
- Set the brake on locking casters unless you are moving the tool chest.
- Lock drawers and lid before moving the chest.
- Make sure all drawers are closed tightly before closing the lid.

THIS INSTRUCTION BOOKLET CONTAINS **IMPORTANT** SAFETY INFORMATION.  
PLEASE READ AND KEEP FOR FUTURE REFERENCE.
